Solar Doorbell

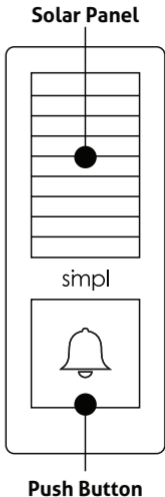

Test & Install Guide

The simpl wireless Solar Doorbell includes a pre-installed, long-life lithium-ion battery. The rechargeable battery is powered by either direct or indirect light.

The waterproof Solar Doorbell includes a mounting bracket, adhesive pad and screws for brick installation.

Test: When purchased in a kit, plug in the AC Plug-in Alert or turn on the Wearable Pager Alert (Section 4). Now, press the doorbell to hear the Alert tune, or if you want to adjust the volume or change the bell tune, see the User Guide (Section 5) Pairing Sensors (Bells) to Alerts' using your preferred tune and volume level.

Solar Doorbell

Install

Mount the doorbell bracket in the desired location.

Use the screws OR use the adhesive pad. If using the adhesive pad, clean the surface first. Snap the solar Doorbell onto the secured mounting bracket.
